

## 8th International Symposium on Avian Influenza Avian Influenza in Poultry and Wild Birds

1-4 April 2012, Royal Holloway, University of London, UK

The conference provides an opportunity for scientists, biologists, medics, veterinarians and government regulators from all over the world to exchange and discuss current scientific information on avian influenza (AI)

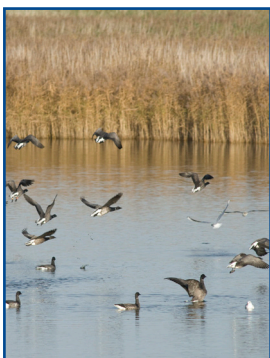

The symposium will address national and international issues, focusing on both poultry and wild birds.

Poultry sessions will include:

- ◆ Global reports on AI
- ◆ Pathobiology
- ◆ Surveillance for AI
- ◆ Field epidemiology
- ◆ LPAI outbreaks
- ◆ Field control
- ◆ Diagnostics
- ◆ Education and risk communication
- ◆ Vaccines and Vaccination
- ◆ Zoonoses

Wild bird sessions will include

- ◆ Surveillance
- ◆ Ecology
- ◆ Pathobiology
- ◆ H5N1 HPAI

### Important dates

Abstract submission is now open

Registration opens: 19 September 2011

Abstract submission deadline: 1 November 2011
